FOR DEEPER OHIO RIVER

Louisville Business Men Will Move on Washington and Congress.

TO TAKE ADVANTAGE OF TAFT'S RECENT UTTERANCES.

Recent utterances of President Taft giving his unqualified support to the plans for the improvement of the Ohio River, which embrace the issuance of bonds sufficient to secure a nine-foot stage from Pittsburg to Cairo, thus making the river navigable all the year round, have given a new impetus to the movement among Louisville business men, says the Courier Journal. A joint committee from the Louisville Commercial Club and the Board of Trade has decided to work for the largest delegation ever sent from Louisville to the National Rivers and Harbors Congress, which will meet in Washington, December 8, 9 and 10. Assurances have been received that if the proper pressure is brought to bear upon Congress at this convention, and if the President is given the hearty support that his recent utterances deserve, the problem of making the Ohio River navigable will be complete within a few years.

LOUISVILLE AND JEFFERSON COUNTY WILL BE DEMOCRATIC

W. O. Head Inaugurated Mayor Tuesday and Council Sworn In.

Louisville, Ky., Nov. 16.—After having been under a Republican administration for two years, Louisville became Democratic today, when W. O. Head was inaugurated Mayor, succeeding James F. Grinstead. Mayor Head will at once appoint his executive boards and will take charge of the city's affairs. The Democratic General Council has already been sworn in. The other Democratic city and county officers-elect and the judges, assume their offices at various times between now and the first of the year. After January 1 the Democrats will be in complete control of Louisville and Jefferson county.

AGRICULTURAL DEPARTMENT

On the Job With Good Work For Farming Interest.

SPENDING ABOUT \$18,000,000 FOR EXPERIMENTAL STATIONS ETC.

Washington, Nov. 13.—"The Department of Agriculture is on the job, alright, but we aren't waging an advertising campaign just to show how busy we are."

This is Secretary of Agriculture Wilson's reply to President William C. Brown, of the New York Central railroad. The latter's suggestion that the Government economize on warships and instead establish experimental farms in every State, Secretary Wilson declares it unnecessary.

"We are already spending something like \$18,000,000 for the very sort of work President Brown speaks of. Evidently he doesn't know what is going on throughout the country. We are establishing experimental stations and farms as fast as we can and from these the Government reaps an indirect profit. It is the farmer, of course, who directly profits. We are helping him to grow better crops, larger crops and more diverse crops."

"The Government is spending about \$250,000 yearly in the war against the cotton boll weevil in the South; \$250,000 in the tick eradication fight. We have spent large sums showing the farmers of the Pacific coast how to pack and ship their oranges and fruit to Eastern markets without perishing; we are furnishing new and better seed."

Can you imagine a merchant, whose ambition is to set the pace in advertising for all of his competitors, being other than a prospering merchant.

HONOR ROLL FOR SECOND MONTH

Pupils of Earlinton School Doing Good Work.

PARENTS ARE INVITED TO VISIT THE SCHOOL

The average grades of the pupils in attendance, the second month of school, closing Nov. 5, show the following children doing themselves and parents much credit:

Come to see your children recite. Encourage them by your presence. Let them become used to seeing you at their school.

VICTIM OF LEPROSY

Is Illinois Farmer, According to Physicians—Came From Slight Wound.

Charleston, Ill., Nov. 12.—John Conrad, a farmer living seven miles northwest of Charleston, is the victim of leprosy. At least the affection with which he suffers has been pronounced leprosy by a physician. Some months ago, while engaged in building a fence he mashed his left forefinger and thumb and the disease resulted from the injury.

Thanksgiving Offering.

Wednesday evening, Nov. 24, at the rink, the ladies of the Methodist Aid Society will give an entertainment. The purpose of this is an offering, the sum of which goes on the church fund. Members of the aid and of the church are asked to give one dollar, if possible, or as much as they can. Outsiders will be charged 25c for grown people, children, 15c. A pleasant program will be given and refreshments served. All are earnestly requested to attend.

A good store should be advertised, as though its owner is not only sure that it is a good store—but determined that no one shall forget the fact.

SHERIFFS MUST SETTLE PROMPTLY

State Auditor Will Insist on Regular Monthly Settlements.

MUCH STATE MONEY NOW BEING KEPT IN HOME BANKS.

Frankfort, Ky., Nov. 13.—Sheriffs all over Kentucky have been slow about making their settlements with the State each month, as the law requires, and Frank P. James, State Auditor, is preparing to go after some of them with a club in an effort to force monthly settlements. The State is short on money, Mr. James says, because some of the Sheriffs have not been complying with the law and have been waiting until the last few days to make their settlement with the State. Mr. James says this is done so that the banks in the home towns of those Sheriffs who are dilatory can use the State's money.

Steps to force immediate settlement will be taken by Mr. James, and he hopes to have the treasury full within the next few days. The Sheriffs whom he is after are not delinquent, as their final settlements are not due, but the law requires that the money collected each month be sent to the State Treasurer as collected, and this has not been done by many of the Sheriffs. Mr. James says the Sheriff of a certain county will let the money he collects lie in a bank in some town for two months and then it is collected and sent it in to the State only when the final settlement is required of the Sheriff. This keeps the State treasury short of money.

Jefferson county's Sheriffs have always made monthly settlements and Mr. James says he has no fault to find with the Sheriffs from that county.

LOOKS LIKE NO HENDERSON DAM

Gen. Marshall Does Not Include It in Recommendations.

Prospects for the Henderson dam do not look so bright for this session of congress at least, says the Henderson Gleaner. General Marshall, chief of engineers, in his report filed Friday, failed to mention the dam as one of the river improvements he recommended to be made, according to the Associated Press dispatches last night.

It is estimated that the Henderson dam cannot be constructed under \$2,000,000, and Gen. Marshall only advised that \$10,000,000 be expended on all the rivers and harbors. In his report he recommends that all the improvements for the Ohio river be made above Cincinnati. The balance of the money he recommends be expended on the Kentucky, Mississippi, Missouri and Tennessee rivers.

Gompers and Others Are Denied Extension by Court.

Washington, Nov. 15.—The Court of Appeals of the District of Columbia today denied an application made by counsel for Samuel Gompers, John Mitchell and Frank Morrison of the American Federation of Labor, sentenced to jail for contempt, for a stay in the execution of the mandate to the District of Columbia until January 2, 1910, unless notice of an appeal is given before that date. The mandate was handed down Friday night, the 14th.
